Continental is leading the way in sustainable tyre production, including research into using dandelions as an alternative source for natural rubber, with a new research facility in Anklam dedicated to this advancement.

The Heart of England Forest: Reforestation and Community Impact

Since 2019, Mercedes-Benz World has supported The Heart of England Forest, contributing to reforestation efforts that promote environmental sustainability and biodiversity. Each year, we help plant 6,000 native broadleaf trees, establish nearly nine acres of new woodland, and provide opportunities for individuals with disabilities and underprivileged groups to experience the forest.
